Crypto Exchange Overview

NFT Marketplace

The GX NFT Marketplace offers a wide range of opportunities in the world of digital art and collectibles. Here, users can create (mint) NFTs, buy, sell, bid on, collect, trade, and showcase digital assets across multiple blockchain networks.

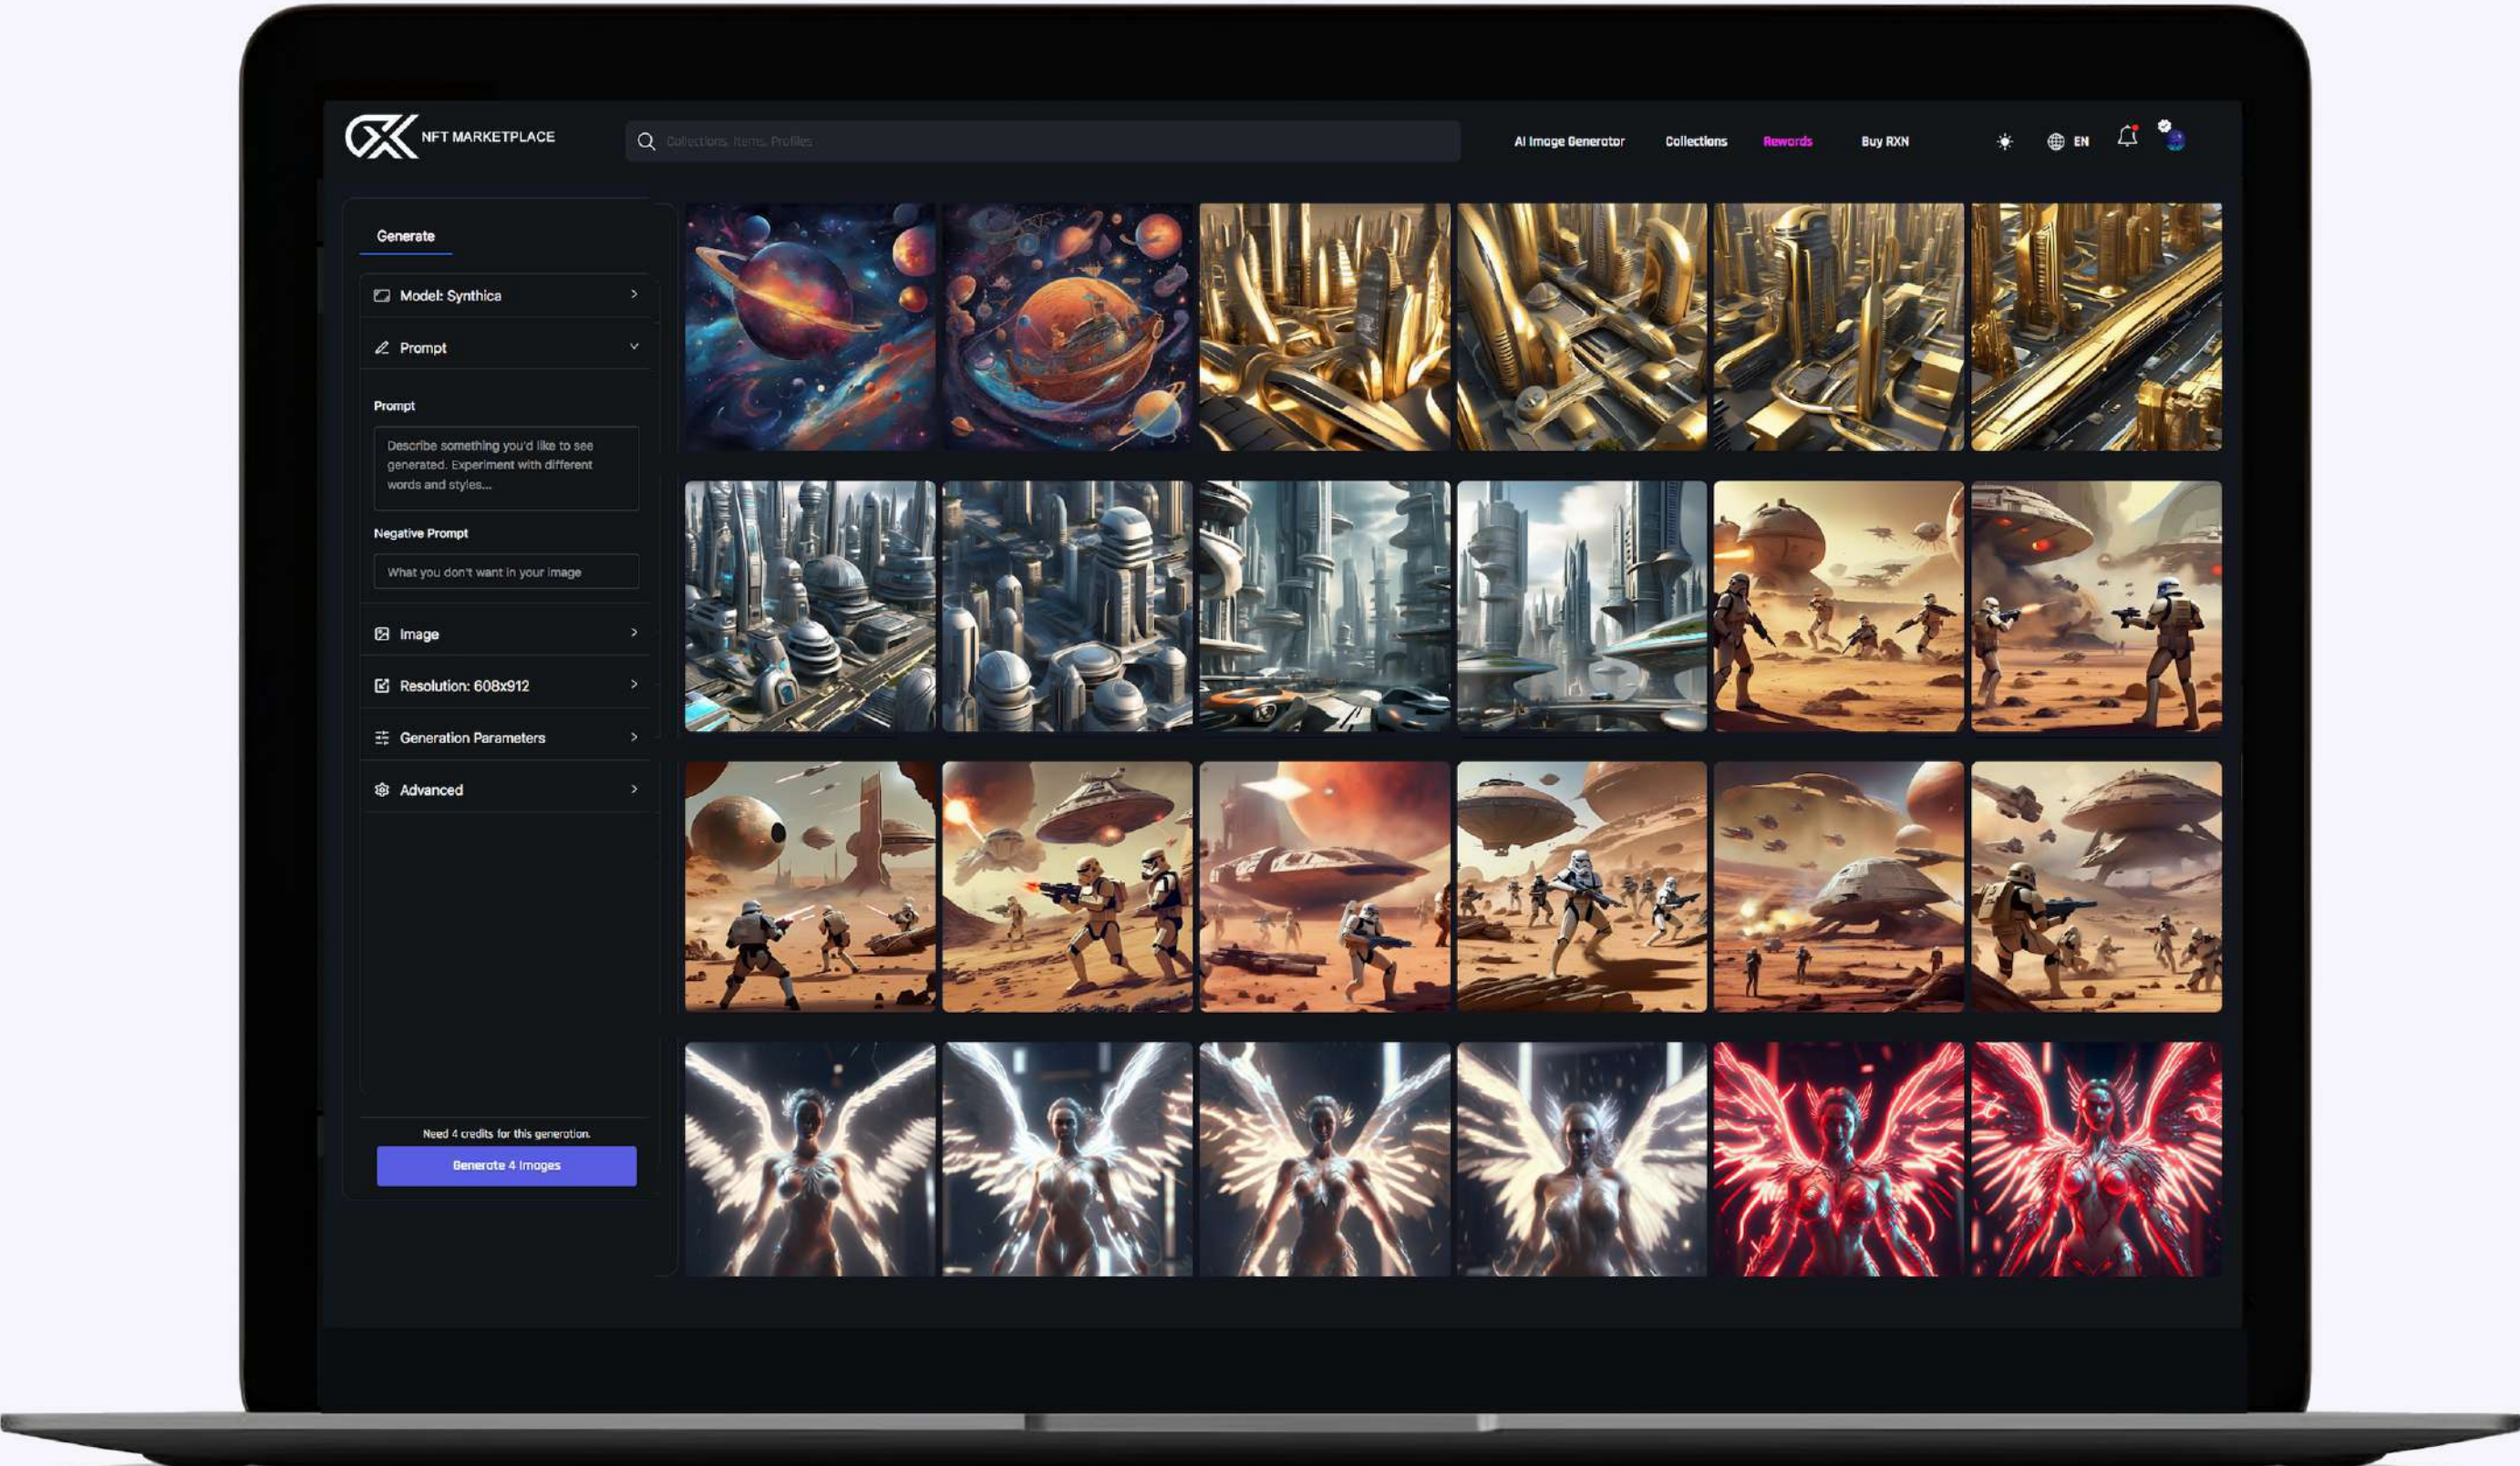

Users can mint and share their digital creations, reaching a global audience of art enthusiasts and collectors. The platform is equally welcoming to collectors, providing a diverse selection of NFTs with unique stories and artistic value.

Users can also participate in auctions, trade NFTs with others, and engage in a dynamic NFT ecosystem. Beyond transactions, the GX NFT Marketplace fosters connections with artists and collectors, creating a community of like-minded individuals passionate about digital art.

List of Features:

- NFT Minting/Import NFTs
- AI Generator for NFT Collections
- Auction or Fixed Price Listings for NFTs
- Real Estate Tokenization
- Platform Fees & NFT Seller Royalties

Find the Best Fit: Non-Custodial vs. Custodial

Comparing	Non-custodial	Custodial
Security	User in charge of safety	Institutional-grade security systems
User Experience	Complex as users have to manage their own keys and backups.	User-friendly with simpler interfaces
Recovery Process	If the private key is lost, access to funds is irretrievable.	Users can recover accounts using verification methods.

Unveiling the Crypto Payment Gateway

Introducing the GX Crypto Payment GateWay, a game-changer for e-commerce businesses and online retailers looking to broaden their payment options and enhance the user experience. With our cutting-edge plugins and checkouts, e-commerce businesses can seamlessly integrate cryptocurrency payment solutions into their online stores. This not only opens up new avenues for charging their users but also expands their customer base to include crypto enthusiasts and tech-savvy individuals.

The GX Crypto Payment GateWay offers the unique advantage of instant fiat conversion for cryptocurrency payments, ensuring that e-commerce businesses receive their funds quickly and securely. Payments are converted into fiat currency, and the funds will be deposited in their bank accounts within the next business day through wire transfers. This rapid conversion and settlement process minimizes financial risk and provides peace of mind for e-commerce businesses.

List of Features:

- Automated crypto acceptance
- QR code payments
- Recurring payments
- P2P transactions
- Unified management panel

Crypto Point of Sale System & Payment Terminal

GX POS revolutionizes retail businesses by expanding their in-store payment options and reaching a broader customer base through the introduction of the innovative GX point-of-sale (POS) machine. This state-of-the-art solution empowers retailers to accept a wide array of digital currencies while providing the unique capability to instantly convert cryptocurrency payments into fiat currency with next-day payment via wires. This invaluable feature enhances customer convenience and attracts tech-savvy and forward-thinking clientele, positioning your retail business at the forefront of the payment revolution.

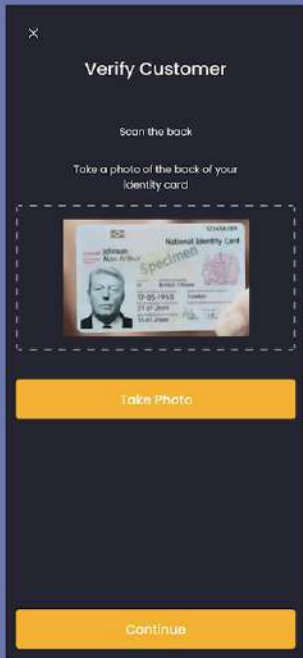

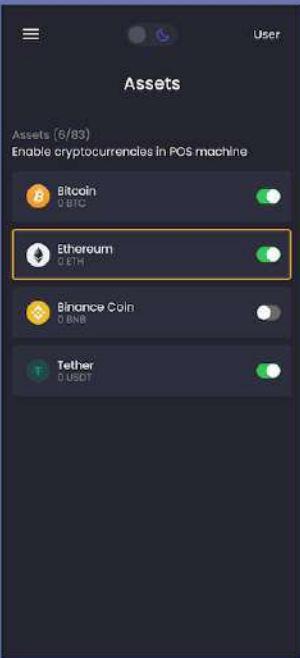

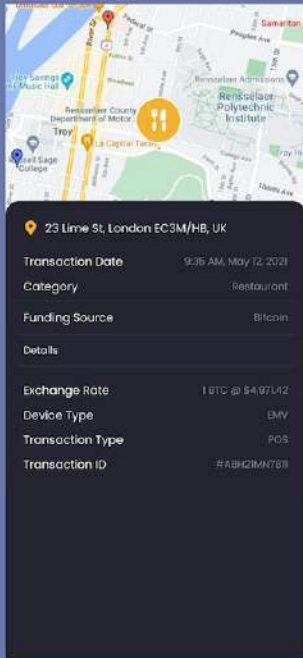

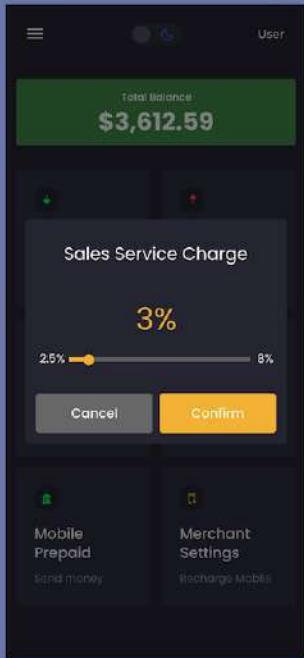

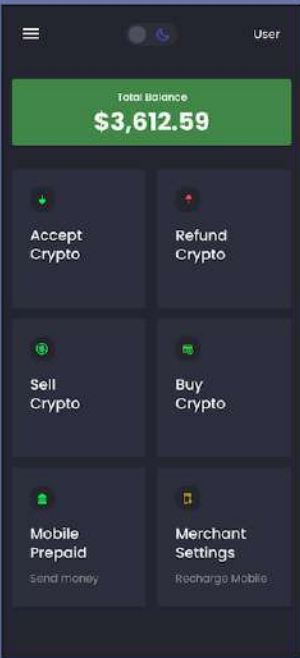

Furthermore, our POS machine empowers retailers to facilitate cryptocurrency transactions in-store, allowing them to sell digital currencies against cash and credit card payments, adding even more versatility to their offerings.

List of Features:

- Accept Crypto Payments
- Instant Convert to Fiat for next day payouts
- Retails can Sell & Buy Crypto and earn 2%
- Intregation of your own stable coin (+50k)
- Earn from selling POS machines and Transactions

Modernizing Payrolls with Crypto Accounting

Introducing our revolutionary Crypto Payroll platform, a game-changer in the world of business finance. With this innovative solution, businesses can seamlessly manage their payroll processes by sending salaries and even charging invoices using cryptocurrencies.

This platform is designed to provide businesses with unprecedented flexibility and efficiency. Say goodbye to traditional payroll methods and embrace the future of finance. Here's what you can expect from our Crypto Payroll platform:

1. Streamlined Payroll Management: Our platform simplifies the payroll process for businesses. Instead of the hassles associated with traditional payroll systems, you can now effortlessly send employee salaries in cryptocurrencies of your choice. This means faster, more cost-effective, and borderless payroll processing.
2. Invoice Payments in Crypto: In addition to payroll, our platform also empowers businesses to invoice their clients and customers using cryptocurrencies. This opens up new avenues for accepting payments, especially in the global marketplace, where traditional payment methods can be slow and costly.

List of Features:

- Seamless invoicing
- Batch payroll payments
- Efficient expense management

Cryptocurrency for the Financial Services Space

GX Chain is an open-source, decentralized blockchain network that aims to provide a common platform for the exchange of fiat and cryptocurrencies across the globe. Its native currency is called GEX which is denoted by XLM. Any currency from across the world, be it crypto or fiat, can be represented as assets on the GX blockchain network.

These currencies then can be exchanged with any other asset present on the GX network. All the transactions are submitted to a shared and distributed public ledger.

Each GX node has a copy of this public ledger which makes tampering with these transactions almost impossible.

List of Features:

- Decentralized Blockchain network
- Extremely low-cost transactions
- 2-5 seconds transaction speed
- ISO 20022 Compliant
- Build for global financial infrastructure
- Open Source with Global Developer Community
